

ExpoAperture Depth of Field Guide

Focal Length Conversion Table For 1.5 and 1.6 Equivalent Focal Length Cameras

If you have a camera with a 1.5 or 1.6 equivalent focal length use the following conversion table to determine the focal length setting on the ExpoAperture Depth of Field Guide.

Determine the actual focal length of your lens and set the ExpoAperture Guide to the corresponding focal length in the table. You may approximate values that are not directly listed in the table.

Actual Focal Length of Lens	Set the ExpoAperture Guide to...
14mm	18mm
17	21
20	25
24	30
28	35
34	42
40	50
48	60
56	70
68	85
80	100
96	120
112	140
136	170
160	200
192	240
224	280
273	340
321	400
